Buy game if you wanna relax. tl;dr: In any situation, running!

. Was given this through a steam key giveaway. Like most games with free codes it's a rip off of a superior game. The controls have no weight to them, everything is floaty, and plainly put it's not very fun. Might be good for young kids, but as an adult you can see all of the problems this game has. If you can, try it for free.. I wonder what kind of mental problems the creators of this game have.... this game ♥♥♥♥ing sucks

Eh not worth it. Shortest game ever beat it in five minutes.... ITS A MUST PLAY FOR EVERYONE DEAD AND UP!!!!!!!!!!!!!!!!!!!!!! pretty good game. soaked game.. wtf ARE THEY DRUNK ?. Game looks nice, simple and cute design on levels and characters. Music and sound effect are also ok. Controls are buggy and loading time is very long. You can't save the game so when you die you have to start all way from start and you will die many times because some times you don't need to touch enemy for it to kill you! Price is low but I think there are better free games on internet than this so I will have to give thumb down for not being able to save.. Finished in under 10 mins like 5 mins it took me ( The other bit was I had it open) Fun and cute :). yellow is life. yellow spaceman in clumsy-platformer hell
