King is one of the greatest and most influential writers the world has ever known. He has been called "The Father of Crime and Punishment," "The Devil's Book of Crimes," and the author of the bestseller that inspired Thomas Pynchon's novel *Fahrenheit 451*. He has been hailed as one of the greatest science fiction writers of all time and was an inspiration for Stephen King, as he was the inspiration to Thomas Pynchon for the entire novel from the introduction. He became known as "The Lord of the Flies" as he predicted that it would be "further from the truth.".. While King has said many times for decades that his latest novel, *The Dark Tower*, is "not about the end of history" but rather the arrival of the Lord of the Flies -- his first book in the series, *The Dark Tower: The Tower of the Wind* was released on December 6, 2015. King has spoken frequently about the nature of a "New Age" in the series, which was first published as *The Dark Tower: The Gunslinger* in 1990. He has even predicted that "in the next century, you will be talking about the Lord of the Flies, not something else."
